Stakeholder Feedback Data Document Hilliard Elementary School

Survey Administration

The AdvancED surveys were administered with fidelity to all parties. All faculty were provided access via their school FOCUS account which they utilize daily. All parents were provided access to surveys via their school FOCUS account. Hard copies of the survey were also distributed to the parents due to the traditional low response via technology. We also provided incentives to any student who returned their surveys! It made a big difference in our return rate. Many parents responded as a result of the additional hard copy option. All students in third – fifth grade took the survey during their computer lab resource time. Participation was reflective of the overall institution in that all stakeholders were given an opportunity to participate.

Total Number of Participants:

- 53 Faculty
- _____25 Parents (this does not include over 100 paper copies that were submitted)
- 293 Students
 - Stakeholder Feedback Results and Analysis

Note 1: If results from more than one student survey are reported, the results of all student surveys will be averaged (using weighted averages) into one "student score."

Note 2: This spreadsheet assumes your institution has met the minimum requirements for response rates and that all administration guidelines have been followed. If both of these criteria are not met, enter "1" on the Stakeholder Feedback Diagnostic.

Student Survey

Questions	2014 - 15	2015-16
	Percent	that Agree
In my school my principal and teachers want every student to learn.	97	97
2. In my school I am learning new things that will help me.	95	90

3. In my school I am	80	79
treated fairly. 4. In my school students		
treat adults with respect.	72	64
5. In my school my teachers want me to do my best work.	100	99
6. My teachers help me learn things I will need in the future.	92	93
7. My teachers use different activities to help me learn.	96	94
8. My teachers listen to me.	75	75
9. My teachers tell me how I should behave and do my work.	94	93
10. My teachers ask my family to come to school activities.	68	58
11. My teachers always help me when I need them.	87	85
12. My teachers tell my family how I am doing in school.	76	80
13. My teachers care about students.	96	95
14. My school is safe and clean.	84	81
15. My school has many places where I can learn, such as the library.	96	99
16. My school has computers to help me learn.	97	95
17. My school wants children in our school to help each other even if we are not friends.	86	81
18. My principal and teachers ask me what I think about school.	47	44
19 My principal and teachers tell children when they do a good job.	91	88
20. My principal and teachers help me to be ready for the next grade.	96	97

Areas of Notable Achievement

 Which area(s) indicate the overall highest level of satisfaction or approval? One area that parents and staff ranked very high on is the fact that our school's purpose statement is clearly focused on student success. This is the guiding light for all activities and direction for our school – our students. I believe all of our high areas will reflect this commitment.

- Parents indicated that teachers work together as a team and provide challenging work for students. Parents also indicated that students know expectations and teachers keep parents abreast of student progress. Parents feel confident that staff members are highly qualified and sufficient learning resources are provided for success. Parents overwhelmingly expressed that they feel our school provides a safe learning environment while preparing our students for success.
- The faculty concurred with the parents on the above mentioned areas. Faculty indicated that school leaders have high expectations for all school personnel and students. School leaders regularly evaluate and provide feedback to improve student learning. Teachers also indicate that they use a variety of technologies, instructional strategies as well as collaborative learning to ensure student success and to meet individual learning needs. School leaders and teachers monitor data to stay abreast of student progress as well as to plan for continuous improvement. Teachers also noted that consistent grading policies are in place to keep parents informed of student progress. One of the most telling indicators is that at Hilliard Elementary each student has at least one adult who supports that student's educational experience. It is important that each student knows that we care and support them.
- Students reiterated that same sentiment with 97% of students polled expressing that their principal and teacher want every student to learn and do their best work. Students feel their teachers use a variety of teaching strategies to teach them lessons that are meaningful to them in real life. Students also recognized that our school has numerous resources to bolster learning. Most important students know their teachers care about them and adequately prepare them for the next grade.
- o Which area(s) show a trend toward increasing stakeholder satisfaction or approval? While I don't feel that two years will reflect a significant trend, almost all areas are relatively high and show overall satisfaction.

One area that shows success and growth is that our school's purpose is clearly focused on student success. All other indicators tend to support this overarching element. An additional area on the parent survey that demonstrated marked improvement is that our school provides excellent support services (e.g., counseling, and/or career planning). I know that our parent survey does not give the whole picture due to low number of surveys that got counted, but I am glad those parents felt this area is satisfactory. I feel confident that the total surveys will reflect this same sentiment.

• Which of the above reported findings are consistent with findings from other stakeholder feedback sources? Feedback from parents, community members, SAC and PTO supports the high level of satisfaction in these areas. The community is very supportive and proud of their school.

Areas in Need of Improvement

- O Which area(s) indicate the overall lowest level of satisfaction or approval? I think the lowest level of satisfaction would be from the parents on the opportunities for stakeholders to be involved in school and that the school ensure effective use of financial resources. I would make the same disclaimer as above that this data is only based on 25 parents and the overall level of satisfaction is in the high 70's for both of these. Students expressed that they would like their families to be invited to school more and that they would like to have more input.
- O Which area(s) show a trend toward decreasing stakeholder satisfaction or approval? The areas that have shown a decrease over the last year is that students have up to date computers and that instructional time is protected while interruptions are minimized. Once again, this was from the parent data which needs to be updated with a larger population to give an accurate view from the subgroup.

- O What are the implications for these stakeholder perceptions? I suggest that we continue to watch and evaluate these areas with more feedback. It just so happens that this coming year is the year our technology will be updated with other elementary schools in our county. Protecting instructional time is always a priority and we will consider this data and evaluate our actions.
- o Which of the above reported findings are consistent with findings from other stakeholder feedback sources? The above issues are not supported by other stakeholder feedback, PTO or SAC input. We will continue to review and reevaluate based on a larger survey pool to be sure we are adequately identifying focus areas for improvement.
