

## Bryceville Elementary – Agenda September 8, 2022

### 1. Welcome/Introductions and explanation of SAC

#### What is a School Advisory Council?

The School Advisory Council (SAC) is a team of people representing various segments of the community—parents, teachers, students, administrators, support staff, business/ industry people and other interested community members. The purpose of a SAC is to assist in the preparation and evaluation (developing and evaluating) of the results of the school improvement plan. Additionally, SAC receives funds "to be used at the discretion of the School Advisory Committee. A portion of the money should be used for implementing the school improvement plan."

Each school in the State of Florida must have a SAC. By law, each SAC must be composed of the principal and an "appropriately balanced" number of "stakeholders." These individuals must be representative of the ethnic, racial and economic makeup of the community served by the school.

"The whole point of school improvement is data-driven decision making. The process is SUPPOSED to be fairly simple and straight forward: The SAC reviews relevant data (which is much more than test scores), identifies problem areas, develops improvement strategies, monitors their implementation, and then starts the whole process over when the next round of data is available."

### 2. Voting in new members – Parent, Teacher Memberships, Election of SAC Chair
