### **Presentations/Discussions:**

1. District parent and Family Engagement Plan: the committee was shown the District Parent and Family Engagement Plan
  - a. Review of current plan: areas of concern from the District Parent and Family Engagement Plan were the two areas of 63% and 68% where parents responded. 63% of parents said they received information about their child's learning goals/targets and curriculum based on the Benchmarks of Excellent Student Thinking (B.E.S.T) standards. Committee members thought this was low, especially when standard nights are held and posted on social media (Facebook, school's websites, flyers, school calendars. The other area of 68% of parents said their child's school informed them that they can become a member of the School Advisory Council (SAC) to develop and review the school and district Parent and Family Engagement Plans, School Improvement Plan, etc. Again, the committee members thought this was low based on the amount of school advertising through flyers, school newsletters, school calendars, and social media (Facebook, websites etc.) going out to parents throughout the school year. Other areas were looked at and talked about such as: some word changes, adding examples and/or clarifications to the District Parent and Family Engagement Plan.
  - b. Approval of plan: H.Gardner motioned to approved the plan, S.Arowood seconded the motion
  
2. Title 1 Budget
